

**Client:** A Solicitors Partners Family Day

**The brief:** Tinies Crèches were asked to provide 20 Event Nannies for an event in Buxton, Derbyshire.

**Delivery:** Tinies crèches provided childcare support for a Partner's family day for a group of solicitors in Buxton, Derbyshire. The remit was to provide each family with an allocated event nanny to care for their children including chaperoning them during entertainment, supervising them within the hotel and also supervising their bedtime routine over a two day period.

**Service & support:** Tinies crèches liaised with the Personal Assistant to one of the Partners and ensured smooth assistance with the administration and implementation of the event nanny service. We agreed to provide a total of 20 event nannies to ensure that each family had an allocated carer to supervise their children during the partner's weekend. This enabled the parents to relax and enjoy their meal happy in the knowledge that the children were having fun and were being well cared for. The weekend provision was overseen and organised by Fiona Atkinson the branch owner for Tinies childcare North to ensure absolute smooth running of the event.

Nanny responsibilities included:

- Supervising individual children
- Liaising with parents about care plans
- Supervising mealtimes
- Overseeing care, support and wellbeing of the children
- Overseeing activities
- Carrying out bedtime routines with the children including setting

All staff were in Tinies Uniform so were easily identified by any of the children, hotel staff or parents. There were also a number who were First Aid trained. A manager overseeing the provision remained on site at all times.

**Client feedback:**

"Thank you for your efficiency and organisation for our annual event. We have used Tinies to provide our child care for a number of years now and have always found you organised and professional. We look forward to working with you again next year!" **PA to the Partner.**
